Basic Management Policy

- Have a high regard for our customers
- Value and bring out the best of our employees
- Proactively adopt new technologies that harness creativity

Our Vision

Pursuing technology innovation and aiming for a creative and highly profitable company with stronger global presence

Furukawa Electric Basic Environmental Policy

Basic Policy

Furukawa Electric recognizes that preservation of the global environment is a critical issue for society, and shall incorporate consideration of environmental preservation issues into every phase of corporate activity, to contribute to advancement of a sustainable, happy and prosperous society.

Action Guidelines

All activities shall be based on an awareness of its effect on the global environment, and environmental preservation activities shall be pursued by all employees.

We shall observe environmental laws and regulations and requirements from our customers, and set up voluntary standards to upgrade control levels.

We shall define environmental targets and objectives, and carry out activities according to this plan, thereby continuously improving environmental preservation activities.

Environmental concerns shall be taken into consideration in every phase of our work from the R&D and design stages to supply environmentally friendly products.

In every phase of procurement, manufacturing, distribution and customer service we shall work to reduce consumption of resources and energy, to promote recycling, and to reduce waste materials and the impact on the environment.

We shall carry out environmental audits, and review our environmental management system and environmental preservation activities for continuous improvement.

We shall educate all employees to enhance their environmental awareness, and promote disclosure of information and social communication, thereby actively contributing to community activities.
