### Factors for YoY changes in operating income

☐ Factors for increase ■ Factors for decrease

#### [Optical Fiber Cables]

- ☐ Strong demand for fiber in all markets
- ☐ Positive effect of consolidating domestic optical cable manufacturing operations

#### [Photonics Networks]

- ☐ Growing digital coherent-related product sales
- Waning demand for mobile phone-related construction work in Thailand

#### [Energy & Industrial Products]

- ☐ Healthy sales of semiconductor processing tape
- ☐ Favorable sales of power line components
- Sluggish high-voltage power cable sales

#### [Electronics & Automotive Systems]

- ☐ Better model mix for memory disks
- ☐ Improved customer mix for thermal management solution & products
- ☐ Enhanced productivity after new plants in Japan began operations, which led to higher earnings for batteries
- Higher costs for automotive parts at Mexican sites

#### [Metals]

- ☐ Recovery of copper business after snow damage
- ☐ Copper foil improved after transferring manufacturing to Taiwan

Note: The FY2015 forecast figures are those announced on February 4, 2016.

### Forecast for FY2016

### **FY2016 Forecast Highlights**

- Operating income will **remain flat at 27.5 billion yen**.
  - While the <u>Electronics & Automotive Systems</u> segment will drive earnings up, <u>increasing investments in growing businesses</u>, <u>lower rent revenue</u> <u>due to sale of real estate</u>, the <u>yen's appreciation</u>, and <u>slowing</u> <u>electronics-related markets</u> will all have a negative impact.
- Net income will total 12.5 billion yen (up 2.5 billion yen YoY) due to an decrease in the loss from equity method investments, posting of extraordinary gains (including a gain on the sale of real estate), and structural reform costs.

#### 1-(1) Infrastructure (Communications Solutions)

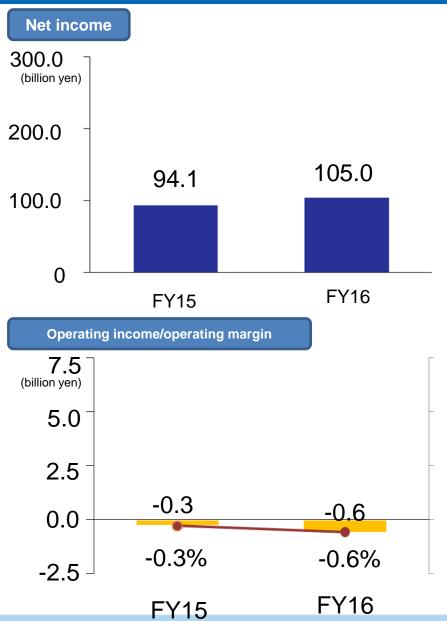

## FY2016 Operating Income Forecast YoY difference: + 100 million yen

- ☐ Fiber sales will remain robust in North America and elsewhere.
- ☐ Demand for digital coherent-related products will be strong.
- Investments in digital coherent-related products R&D will increase.
- Special demand for mobile phone-related construction work in Thailand will subside.
- Exchange differences related to fiber exports and overseas subsidiaries due to the strong yen will affect net sales and operating income.

□: Factors for increase ■: Factors for decrease

### 1-(2) Infrastructure (Energy Infrastructure)

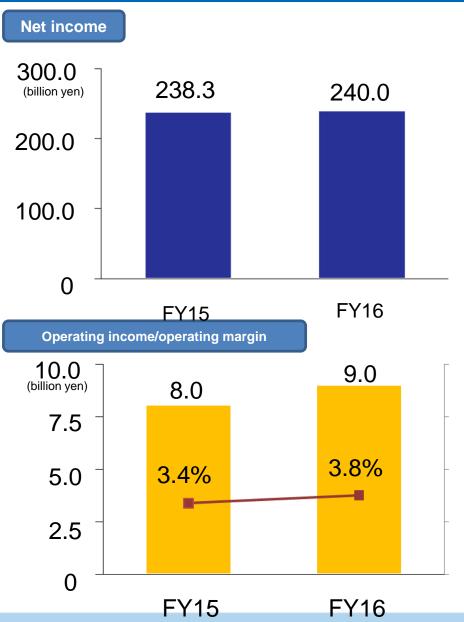

## FY2016 Operating Income Forecast YoY difference: - 300 million yen

- High-voltage power cable will enjoy higher profits due to growing sales in North America.
- ☐ Sales of power line components will be good due to recovery in electric power companies' maintenance and renewal investments.
- Temporary expenses will be incurred due to reorganization of Viscas.

□: Factors for increase
■: Factors for decrease

## 2-(1) Electronics & Automotive Systems (Automotive Products & Batteries)

FURUKAWA ELECTRIC

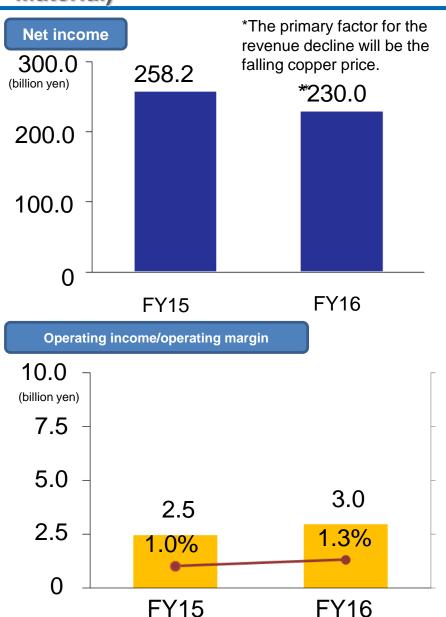

## FY2016 Operating Income Forecast YoY difference: + 1 billion yen

- ☐ Automotive products will see alleviation of the previous year's cost increases at Mexican sites as well as growing sales of SRC, etc.
- ☐ Batteries will see increasing sales of leadacid batteries for hybrid and idle-stop vehicles.
- Impact of production cutbacks by domestic automakers due to earthquakes in Kumamoto and other factors.

☐ : Factors for increase ■: Factors for decrease

### 2-(2) Electronics & Automotive Systems (Electronics Component Material)

FURUKAWA ELECTRIC

## FY2016 Operating Income Forecast YoY difference: + 500 million yen

- ☐ Copper will focus on expanding sales in Asia and other overseas markets and increasing sales of pure copper products in addition to providing customer support logistics.
- ☐ Magnet wire will focus on increasing automotive rectangular wire sales as well as steady growth of ribbon wire sales.
- Electric conductor will see competition for copper wire intensify in Southeast Asia.

□ : Factors for increase
■: Factors for decrease

## FY2016 Operating Income Forecast YoY difference: +/- 0 billion yen

- □ Thermal management solution & products as well as memory disk will focus on expanding sales to new customers despite the sluggish electronics market.
- ☐ Copper foil will see positive effects of the structural reforms at domestic sites, transfer of manufacturing operations to Taiwan, and the increased ratio of value added products.
- We will focus on developing/launching new semiconductor processing tape products although sales will decline due to a major customer's shift to buying products from multiple vendors in line with its BCP.\*
