Net sales

Operating income / operating margin

< Details of Operating Income difference and focus >

Q1 results;

YoY difference JPY▲1.1 billion

□: Positive growth factors ■: Negative growth factors
✓: Focus point

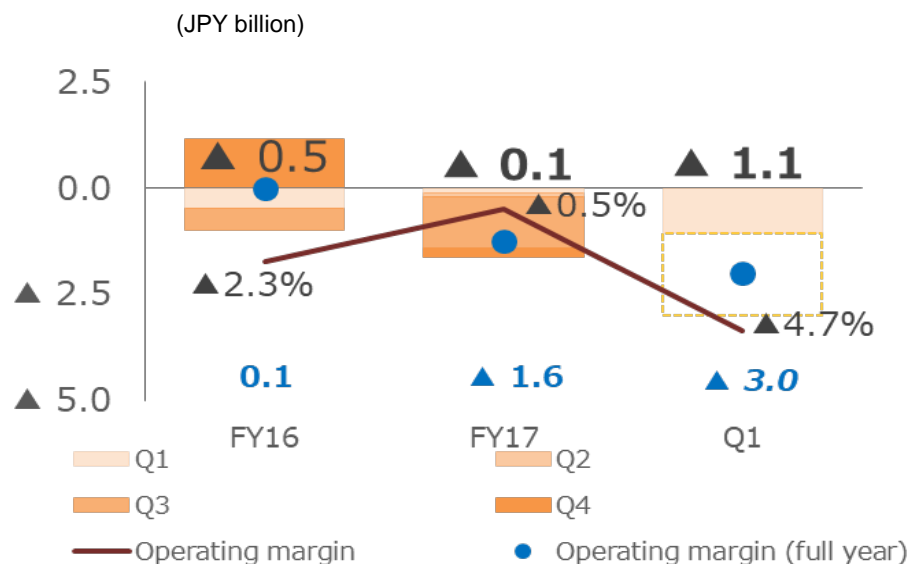

- Shipment volume of optical fibers increased; however, there was a delay of recovery in our client's demand for optical cables in North America
- Digital coherent products did not make a recovery to the same level as FY17 Q1, due to continued inventory adjustment, as well as a transfer period for next-generation products
- R&D expenses and depreciation expenses increased
- Products for network systems in Japan are doing well in the first half of the year
- ✓ Ensure to take in a recovery of demand for cables in North America, and expand sales of small-diameter super-multicore cables (rollable ribbon cables), etc.
- ✓ Steadily execute the investment plan to increase production of optical fiber and cable products
- ✓ Accelerate development and launch of products to meet the needs of the market

1 -(2) Infrastructure (Energy Infrastructure)

Net sales

Operating income / operating margin

< Details of Operating Income difference and focus >

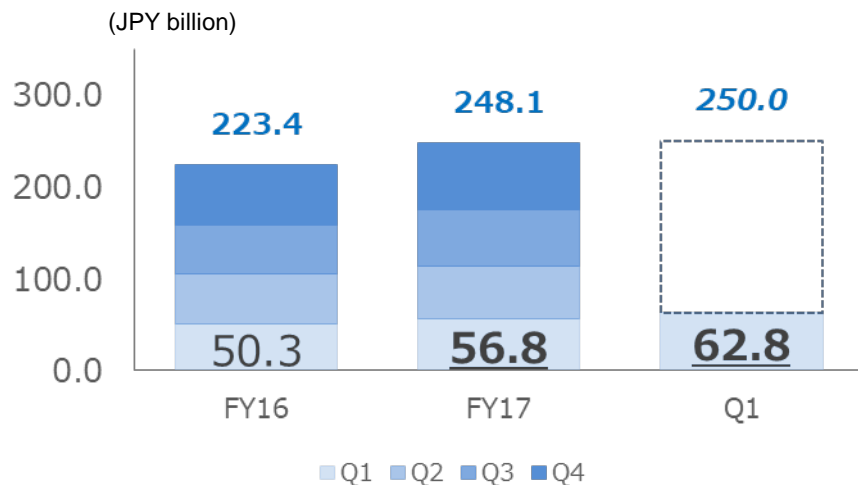

Q1 results; YoY difference JPY▲0.9 billion

□: Positive growth factors ■: Negative growth factors
✓: Focus point

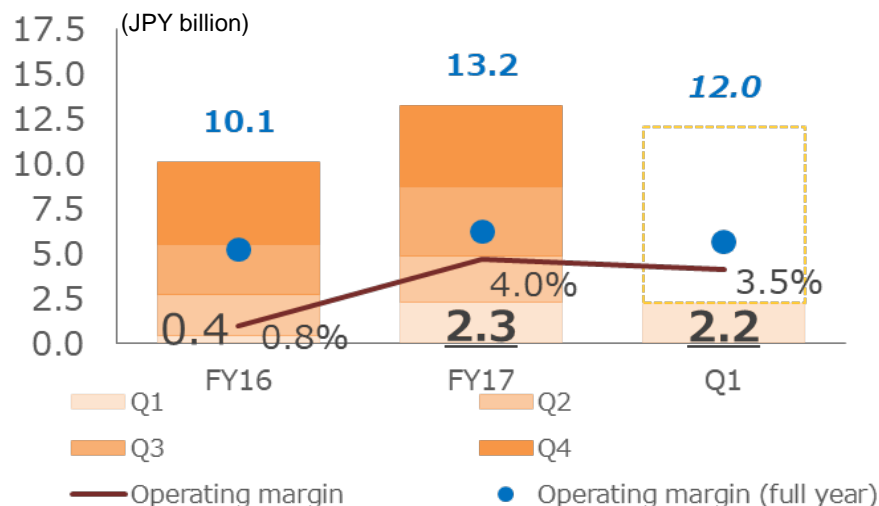

- Compared to the previous year with a large construction project in Japan, etc., operating income declined YoY due to a low profitability overseas underground cable project
 - Provision for loss on construction contract for the proposed new energy project is not yet recorded
- Overseas affiliates remain weak in the first half of the year
- Industrial cables in Japan saw a decline in sales and operating income
- ✓ In China, the effect of the structural reform and increased orders will make positive contributions in the future
- ✓ Increase orders for ultra high voltage cable in Japan
- ✓ Receive orders for submarine cable projects for new energy in Japan
- ✓ Enhance the capability to execute construction and the equipment for submarine cables
- ✓ Introduce low-voltage aluminum CV cable for building construction and electrical facilities

2-(1) Electronics & Automotive systems (Automotive Products & Batteries)

Net sales

Operating income / operating margin

< Details of Operating Income difference and focus >

Q1 results;

YoY difference JPY▲0.1 billion

□: Positive growth factors ■: Negative growth factors
✓: Focus point

- Wire harnesses have continued to deliver strong results since last year
- Fixed costs, including R&D expenses and depreciation, increased for upcoming projects starting from FY20
- ✓ In relation to ADAS, complete development and start sales promotion activities for the next generation high-performance BSS* and next generation high precision radar
- ✓ Proactively acquire the demand for reduced weight resulting from advances in vehicle electrification and autonomous driving
- ✓ Expand wire harness production site in Philippines targeting the North American market

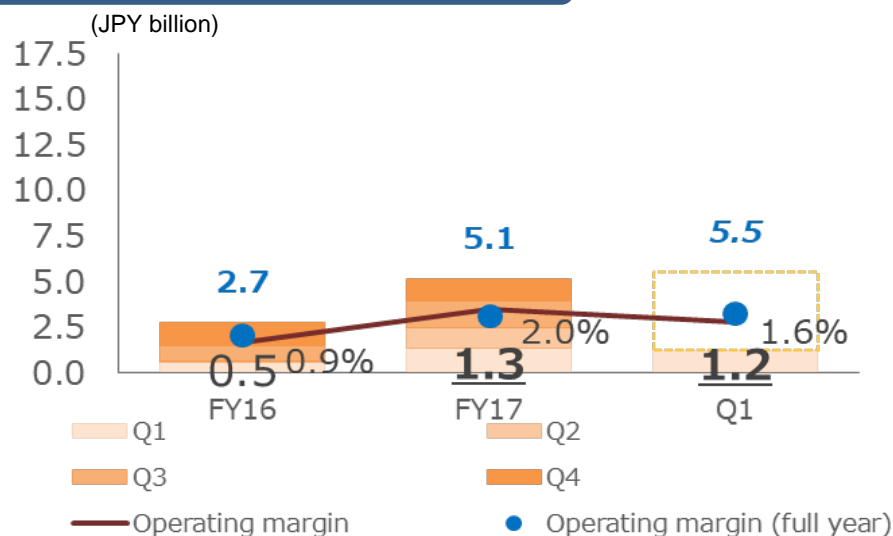

*BSS; Battery State Sensor

2-(2) Electronics & Automotive systems (Electronics Component Material)

Net sales

Operating income / operating margin

< Details of Operating Income difference and focus >

Q1 results;

YoY difference JPY▲0.1 billion

□: Positive growth factors ■: Negative growth factors
✓: Focus point

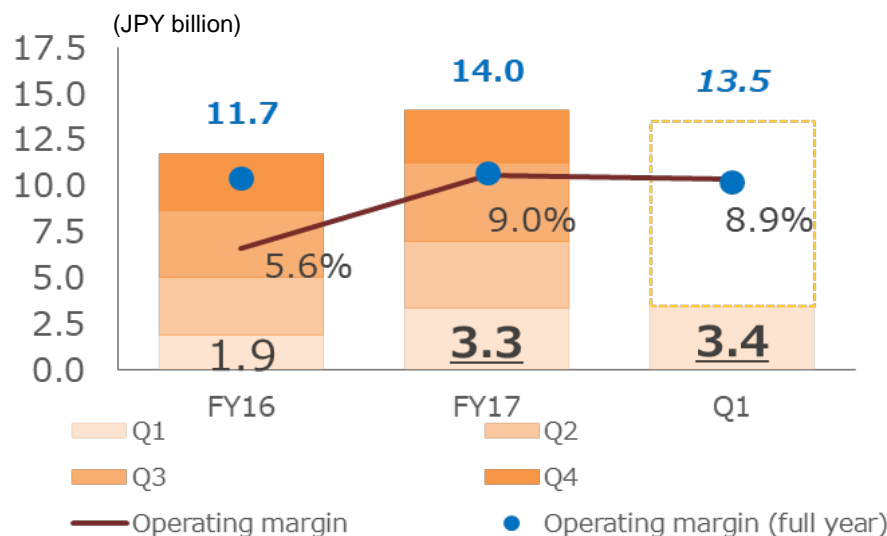

- The sales volume of copper and copper alloy products decreased YoY due to inventory adjustments of some products
- Magnet wires for automotive products delivered a positive result
- ✓ Improve the product mix and increase productivity
- ✓ Introduce new alloys in response to the increased functionality of electronic devices
- ✓ Expand the models for which the automobile magnet wire is adopted, and increase sales in overseas markets

3 Functional Products

Net sales

Operating income / operating margin

< Details of Operating Income difference and focus >

Q1 results;

YoY difference JPY+0.1 billion

□: Positive growth factors ■: Negative growth factors
✓: Focus point

- Copper foils benefited from increased productivity and improved product mix in the strong demand environment
- Sales of memory discs increased due to steady demand from data centers
- Sales of tapes for semiconductor manufacturing declined due to a changing competitive environment
- ✓ Improve the product mix and increase productivity
- ✓ Develop new markets, and propose new uses
- ✓ Develop next generation products
